– Kew Kitchens Restoration

Client

Royal Kitchens Kew

Main Contractor

EV Bullen

Architect

Gardiner & Theobald

Services Consultant

Gardiner & Theobald

Value

£120,000

Services Installed

M&E Services Restoration

Last used over 200 years ago the challenge was to restore the building back to former glory.

Consisting of scullery rooms, bake house, larder stores and accommodation for 30 staff the kitchens served the main palace a short distance away.

Audio visual displays and specialist lighting projection have re-created the period feel bringing areas back to life.

Our Heritage engineers skills were employed extensively to deliver high quality finishes. Close co-ordination with the client ensured all Lighting, power and plumbing services were carefully installed sympathetically within the building to achieve an original look.

The project was completed on time working successfully with the Client and Gardiner & Theobald and has proved a very popular attraction.
